

Tailored solutions for your secondary packaging

Labelling, repackaging, kitting – all under one roof in Burgdorf

As a leading company in Swiss pharmaceutical logistics, Alloga offers more than just storage, transport and distribution. In our specialised Secondary Manufacturing department, we take care of all aspects of pharmaceutical packaging – GMP-compliant, flexible, and with the utmost care.

Our partners who already store their products with us benefit from an integrated added-value service – fast, secure, and tailored to their needs.

Our quality standards – your added value

- Certified quality management (ISO 9001:2015)
- Packaging in compliance with GDP/GMP guidelines
- Fully digitalised process control
- Qualified machinery for labelling and banding
- Documented end-to-end packaging including full protocol
- Officially authorised secondary packaging of pharmaceuticals
- Temperature-controlled production and storage areas (minus 80°C to plus 25°C)

Why Alloga Secondary Manufacturing?

Experience & Precision

We have been processing sensitive products for years – with care and according to the highest standards.

Flexibility

We implement even short-term projects on time and efficiently.

Our services – tailored to your requirements

We reliably take on the following tasks for you:

- Labelling (e.g. when changing the marketing authorisation holder or for free samples)
- Filling of POS and promotional materials (displays, trays, etc.)
- Packaging of promotional bundles (e.g. duo packs)
- Repackaging for hospital packs
- Leaflet exchange
- Launch support, packaging and dispatch
- GMP-compliant quality and inspection services

*We support you
from planning
to delivery.
Personally.
Flexibly*

Expertise & Quality

Our well-trained specialists receive continuous training – ensuring your products are in the best hands.

Your key benefits at a glance

- Professional and efficient execution
- Relief for your internal resources
- Fast time-to-market
- Transparent cost planning
- High process reliability and predictability

This service is exclusively available to partners with an active pharmaceutical logistics contract.

We repackage for you – our capacities for packaging services

- 512 m² production area
